- Administering the Department's capitated behavioral health benefit,
- Onboarding and activating members,

Achieve Solutions

Achieve Solutions

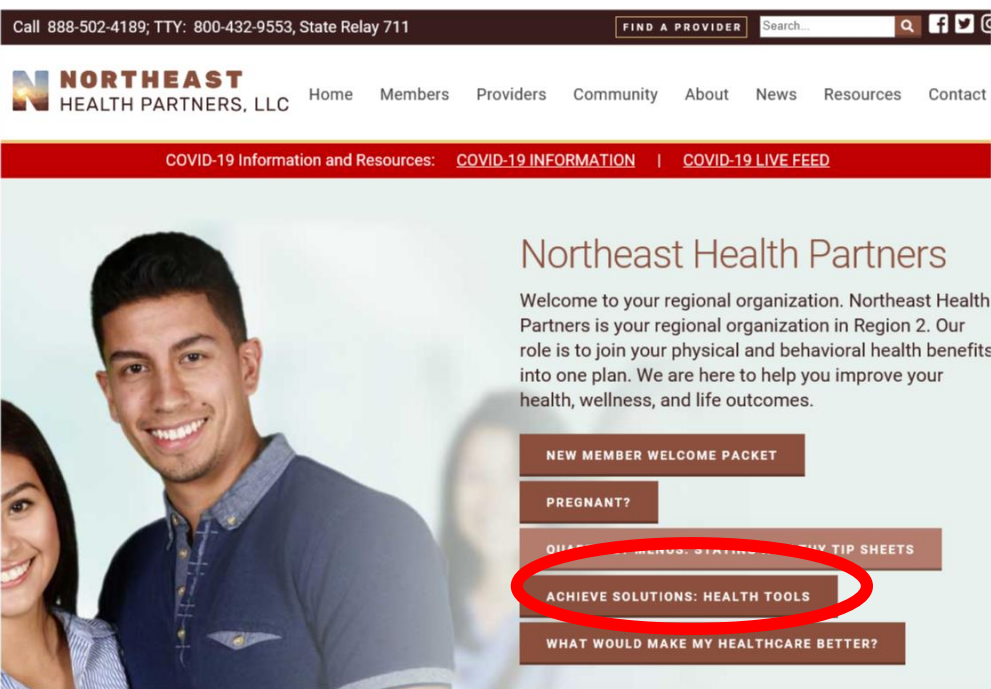

While people are going online to search for credible health care information, providers in turn, are using the Internet to find health and wellness articles that can supplement the treatment and recovery process for their clients.

Beacon Health Options presents Achieve Solutions, a continuously updated and trusted behavioral health and wellness website that you can share with your clients. The site provides thousands of articles in hundreds of topics that can help you educate your clients about:

Death of A Loved One	Depression
Emotional and Physical Abuse	Anxiety
COVID-19 and Your Mental Health	Develop Resilience
Suicide	Diversity and Cultural Awareness
Panic Disorder	Phobias

Participating Beacon Health Options providers can retrieve and print articles right off the site to share with clients during an office visit, or you can refer them directly to the site, where individuals can address their concerns in confidence. It's that convenient.

You can get to Achieve Solutions via the RAE websites. On the home page there is a button for Achieve Solutions: Health Tools

No Waiting List

No Waiting List

As part of our Access to Care Standards for Health First Colorado members, providers shall not place members on a waiting list for initial routine service requests.

If a member is not able to be scheduled they should be referred back to the RAE (Northeast Health Partners or Health Colorado) to identify a new provider.
