If the appointment does not begin within fifteen (15) minutes, the member shall be offered the option of rescheduling for the next available appointment. Members shall be notified of the option to reschedule through a posted notice in the waiting area or by having the wait time policy reviewed with the member at the initiation of treatment.

• Members who were scheduled for prescriber services should be provided an appointment date that does not cause a delay or gap in their prescribed medication regimen. Members indicating urgent or emergent concerns should be provided an appointment that meets the access standards for urgent/emergency requests.
Practice Hours

**Hours of Operation:** Providers who serve Health First Colorado members shall offer hours of operation that are no less than the hours of operation offered to commercial enrollees. Minimum hours of Beacon’s Policy and Procedure Manual for Providers 22 provider operation shall include covered service coverage from 8 a.m. to 5 p.m. Monday through Friday and emergency coverage 24 hours a day, seven (7) days a week.

Administrative Monitoring

Behavioral Health

• Information on the access to care standards is outlined in the HCI and NHP Provider handbooks. As a reminder, this handbook is an extension of your Provider Agreement with Beacon Health Options.
Chapter 05

Payment Standards
Overpayments/Recoup

Providers should routinely review claims and payments to assure that they have not received any overpayments. Beacon will notify providers of overpayments identified by Beacon, clients or government agencies.

Overpayments include, but are not limited to:
- Claims allowed/paid greater than billed
- Claims paid in error
- Inpatient claim charges equal to the allowed amounts
- Duplicate Payments
- Payments made for individuals whose benefit coverage is/was terminated
- Payments made in excess of amounts due in instances of third party liability and/or coordination of benefits
Subject to the terms of the provider agreement and applicable state and/or federal regulations, Beacon or its designee will pursue recovery of overpayments through:

- Adjustment of the claim or claims in question creating a negative balance reflected on the Provider Summary Voucher (claims remittance)
- Written notice of the overpayment and request for repayment of the claims identified as overpaid

Failure to respond to any written notice and/or request for repayment of identified overpayments in the time period identified in the notice/request is deemed approval and agreement with the overpayment; thereafter, Beacon will adjust the claim or claims in question creating a negative balance.

Any negative balance created will be offset against future claims payments until the negative balance is zeroed out and the full amount the overpayment is recovered.
If the *provider* disagrees with an overpayment recovery and/or request for re-payment of an overpayment, the *provider* may request Beacon to review in writing - the written request for review needs to be received by Beacon on or before the date identified in the notice of overpayment recovery or request for re-payment of an overpayment.

Please attach a copy of your written demand or request letter to your request for review and include the following information:

- *provider/participating provider’s name*
- identification number and contact information
- *member* name, and number
- a clear identification of the disputed items to include the date of service and the reason the disputed overpayments are being contested.

Overpayment Recovery should be mailed to:

Beacon Health Options  
1330 Amerigroup Way  
Virginia Beach, VA 23464
No Balance Billing

Participating providers may not balance bill members for covered services rendered.

This means that the participating provider may not bill, charge or seek reimbursement or a deposit, from the member for covered services except for applicable member expenses, and non-covered services.

Participating providers are required to comply with provisions of Beacon’s code of conduct where applicable, including, without limitation, cooperation with claims and billing procedures and participation in training and education.
